

Using myICLUB.com BrokerSync™

SEAN PULRANG, SUPPORT SPECIALIST, ICLUBCENTRAL INC.

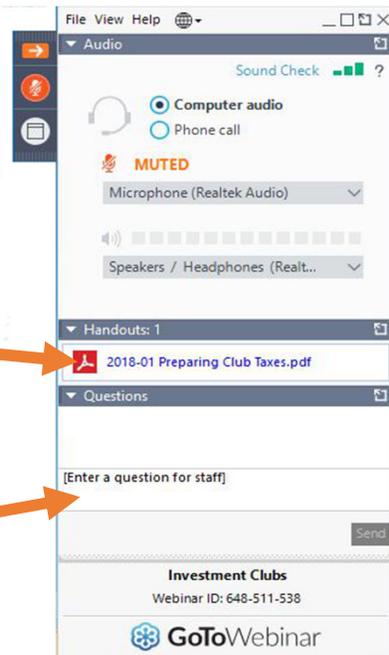

OCTOBER 2021

Handout & Questions

Handout in PDF format is available in Handouts tab.

Type questions in Questions box.

ABOUT MYICLUB.COM BROKERSYNC™

4

What Is BrokerSync?

- Connects myICLUB.com directly to brokerage's web site & downloads transactions for as far back as you specify.
- Imports security **Buys, Sells, Splits, & Dividends**, then enters them in your books according to dates & amounts provided by brokerage.
- Imports **Interest, Expenses & Cash Dividends** from brokerage.

5

Why Use BrokerSync?

- Ensures that dates of stock transactions in your club accounting records match those of brokerage.
- Speeds up entry of both **cash** only & **reinvested** dividend (DRIP) transactions.
- Handles recording **Buys, Sells, Splits, & Dividends** so you don't have to.

6

Supported Brokerage Firms

- Currently supported brokerages (as of October 2021):
 - Charles Schwab
 - TD Ameritrade
 - Fidelity
 - Interactive Brokers
 - E*Trade
- These are most popular brokerages among our investment club customers.
- More are added over time, based on annual customer survey.

7

What BrokerSync is Not

- Is not automated.
 - Treasurer (or another member with treasurer privileges) needs to perform sync on regular basis.
- Does not import identifying info about members or deposits.
 - These must be entered manually.
- Does not import stock prices or account balances.
 - Only imports transactions.
- Does not import spin-offs or mergers.
 - Check www.iclub.com/faq or ICLUBcentral support for help on these.

BrokerSync

Note: Data discrepancies may occur during import, especially if this is the first time using BrokerSync to import your club's brokerage data. We strongly recommend that you back up your myICLUB.com data before importing brokerage records. This will ensure that you can easily restore your club accounting records should something go wrong.

- myICLUB.com will offer to make backup before continuing.
- Unless you have already made backup before clicking BrokerSync, we suggest to *always* click **Backup my Data**.

||

Select Your Brokerage

Select Your Brokerage Firm

Backup successful.
Please select your broker.

- TD Ameritrade
- Charles Schwab
- Fidelity
- Interactive Brokers (Beta)
- E*Trade (Beta)

- Select your club's brokerage firm to continue.
- While some brokers have extra security or slightly different login procedures, each has same basic options for importing.

12

TD Ameritrade & Charles Schwab

- TD Ameritrade & Schwab have same basic layout.
- Select myICLUB.com **Account** to use.
- Decide whether to **Import Cash Flows**.
 - Recommend **not** clicking **Import Cash Flows** to prevent unwanted transactions being imported.
- Select **Date Interval** to use.
 - Defaults to last 90 days, can enter different period or preset such as **Calendar year** or **All records**.
- After making choices, click **Import**.
- **NOTE:** If using TD Ameritrade, have cell phone available to receive security code to enter before proceeding.

MyICLUB Account:

Import Cash Flows

TD Ameritrade username:

TD Ameritrade password:

Date Interval: Last days

Calendar year (starting 01/01/2021)

All records

13

Fidelity

- Fidelity is largely same as TD Ameritrade & Schwab.
- If Fidelity username/password is attached to multiple accounts (such as treasurer's personal account), enter **Fidelity Account number** of club's account.

MyICLUB Account: Import Cash Flows

Fidelity username:

Fidelity password:

Fidelity account (if multiple):

Date Interval: Last days
 Calendar year (starting 01/01/2021)
 All records

14

Interactive Brokers

- Instead of using login & password, Interactive Brokers generates 2 codes on their site, which are then entered on myICLUB.com.
- myICLUB will remember Token from one login to next.
 - As long as you use same browser, should not need to re-enter.

NEW: Make sure you've generated access tokens in your IBRK Account. Please read instructions on how to generate tokens [here](#)

Account: Import Cash Flows

IBRK Token:

IBRK Query ID:

IBRK Account #:
(Format U123456)

Date Interval: Last days
 Calendar year (starting 01/01/2021)
 All records

15

E*Trade

- E*Trade also uses **Security Codes** to import data.
- Unlike Ameritrade, E*Trade's code is generated & must be entered on site **before** clicking Import button.
- Security code generated by E*Trade is only valid for a few minutes and is not re-used between logins to myICLUB

MyICLUB Account: Import Cash Flows

ETrade username:

ETrade password:

Security code (if using 2-step auth):

Date Interval: Last days
 Calendar year (starting 01/01/2021)
 All records

16

After Clicking Import

- Click **Import** & BrokerSync signs in to your brokerage's site to download club's transactions.
 - Depending on amount of club history, may take minute or two.
- Once import is complete, you will see new message below **Import** button, showing how many new transactions were imported.
 - Such as: **Success, 12 new transactions have been imported!**
- Click **Accounting** tab near top of page to return to club records. The import is complete!

- **View/Edit Transactions** shows all recent securities transactions.
- Click any transaction to see details.

19

Review Transactions

- Any transaction imported by BrokerSync will include note showing brokerage & date imported.
- If you have 2 transactions with similar details, but only one shows comment saying it was imported, delete one that does NOT say it was imported.
 - Most likely it was entered before import & is considered duplicate transaction.

Transaction Description

Type	Security income	The action taken.
Date	10/8/2021	Date of the transaction.
Ex-Div date	9/9/2021	Ex-dividend date.
Type	Dividend	Type of the security income.
Symbol	AL	Ticker symbol of the security.
Company	Air Lease Corp	Name of the company.
Amount	\$0.32	Net amount of the Dividend.
Account	TD Ameritrade	The Dividend was deposited to TD Ameritrade.
Comments	imported from ameritrade on 10/13/2021

20

COMMON BROKERSYNC ISSUES

21

Brokerage Listed as “Beta”

- “Beta testing” is stage of software development in which final testing is done prior to “official” release.
- When new a brokerage is added to myICLUB.com BrokerSync, we do extensive internal testing.
- However, due to thousands of different combinations & types of transactions that clubs might use, we list newly added brokerages as “Beta”.
- As more clubs use BrokerSync for these newly added brokerages, we can collect feedback & make any necessary final adjustments.
- As a precaution, we especially recommend always backing up data first for BrokerSync brokerages in Beta mode.

22

Duplicate Entries

- If you have already entered a transaction, but used different date or information than what is in brokerage’s file, you will end up with duplicate transaction in records.
- If you record some stock transactions manually, perform BrokerSync first & then make any other entries you need.

23

Wrong Account Was Selected

- If club has more than one cash account in myICLUB.com, make sure you select correct one before clicking **Import**.
- If treasurer's email address/password is linked to more than one account (Fidelity), make sure correct account is selected.

24

Wrong Date Range Was Entered

- If you select **Calendar year** or **All records** for **Date Interval**, BrokerSync will download & enter transactions from start of year, or as far back as brokerage has records for.
- For new clubs, this may not be an issue.
- If you have years of history & have only been using BrokerSync for few months, be **very** careful about using **All records** option.

25

Brokerage Login Doesn't Work

- If BrokerSync generates an error, try logging in to brokerage website directly to make sure username/password is still working.
- Brokerages often change login procedures, so we may need to make changes on back end to accommodate.
 - Report errors to ICLUB.com support so we can investigate.

26

Fixing Records When Things Go Wrong

- After performing BrokerSync, if you find:
 - Multiple duplicate transactions.
 - Transactions attributed to wrong account.
 - Multiple **BBal** transactions in **Cash Journal** or other reports.
- These most often mean date range included period for which you already made entries, incorrect account was selected, or **Import Cash Flows** was selected.
- For any of these, best option is to restore **Backup** & re-do BrokerSync.

27

Restoring a Backup

- Go to **Accounting > Utilities > Backup Manager**.
- Find most recent Backup & click **Recover**.
 - myICLUB will restore club records to before last BrokerSync.
- Try BrokerSync again.
 - Double-check Account, Cash Flows box, & range of dates selected.
- If same thing happens again, contact ICLUBcentral Support.
 - We will investigate & check if BrokerSync might need to be updated.
